

Koppers Holdings Inc. Reports Fourth Quarter 2008 Results

February 17, 2009

Fourth Quarter Sales Down 6.6 Percent; Loss From Continuing Operations of \$11.4 Million Impacted by Lower Demand, Inventory Adjustments, Asset Impairment and Change in Tax Rate

PITTSBURGH, PA, Feb 17, 2009 (MARKET WIRE via COMTEX) -- Koppers Holdings Inc. (NYSE: KOP) today announced results for its fiscal 2008 fourth quarter.

As previously announced, in October 2008 the company completed the sale of its ownership interest in the coke facility located in Monessen, Pennsylvania for a purchase price of \$160 million plus the value of existing working capital, resulting in estimated cash proceeds after taxes of \$100 million. Accordingly, the operating results of the Monessen facility have been excluded from the financial statements and the discussion below for all periods presented. A schedule of operating results for the Monessen facility is included under Segment Information in this press release.

The company's sales for the fourth quarter decreased 6.6 percent, or \$20.3 million, to \$288.9 million, as compared to \$309.2 million for the prior year quarter. This decrease was due to lower sales in the Carbon Materials & Chemicals (CM&C) segment, which decreased 12.7 percent, or \$25.3 million, partially offset by higher sales in the Railroad & Utility Products (R&UP) segment that increased to \$115.3 million from \$110.3 million in the prior year quarter. The reduction in sales in CM&C was due mainly to lower demand across all major product lines and lower pricing for carbon black feedstocks. Sales for R&UP were higher due to higher volumes and prices for treated crossties, partially offset by lower volumes for creosote and utility poles. Sales for the twelve months ended December 31, 2008, were \$1,364.8 million, representing an increase of \$109.2 million, or 8.7 percent over the prior year period. Year 2008 sales have been positively impacted by higher prices and volumes for carbon materials, with the higher prices due to higher oil prices, higher raw material costs and increased contract pricing.

The loss from continuing operations for the quarter ended December 31, 2008 was \$11.4 million or a loss of \$0.57 per share as compared to income from continuing operations of \$3.7 million or \$0.18 per share in the prior year quarter, as lower selling prices, lower demand, LIFO expense and inventory write-downs to market reduced profitability. Additionally, the company's effective tax rate increased in the fourth quarter due to a change in assumptions regarding the repatriation of foreign earnings, resulting in additional tax expense. Adjusted net income and adjusted diluted earnings per share amounted to \$5.5 million and \$0.27 per share for the three months ended December 31, 2008 after excluding after-tax charges of \$16.9 million, compared to \$7.8 million and \$0.37 per share after excluding after-tax charges of \$4.1 million in the prior year period.

Income from continuing operations for the twelve months ended December 31, 2008 decreased to \$47.7 million as compared to \$47.8 million in the prior year. Adjusted net income and adjusted earnings per share were \$65.4 million or \$3.15 per share after excluding after-tax charges of \$17.7 million, and \$51.9 million or \$2.49 per share after excluding after-tax charges of \$4.1 million, for the twelve months ended December 31, 2008 and 2007 respectively. A reconciliation of net income to adjusted net income and earnings per share to adjusted earnings per share are attached to this press release.

Adjusted EBITDA for the quarter ended December 31, 2008, was \$25.7 million after excluding \$13.5 million of charges comprised of \$11.7 million for LIFO charges and inventory write-downs, \$1.0 million for an outage at a co-generation facility, and \$0.8 million for severance charges, compared to adjusted EBITDA of \$31.5 million in the fourth quarter of 2007 after excluding \$6.8 million of charges for acquisition costs. Adjusted EBITDA for both periods excludes discontinued operations. The decrease in adjusted EBITDA was mainly from lower volumes in carbon materials and chemicals products combined with lower foreign translation. A reconciliation of adjusted EBITDA to EBITDA and EBITDA to net income is attached to this press release.

Adjusted EBITDA for the twelve months ended December 31, 2008, amounted to \$175.7 million compared to adjusted EBITDA of \$161.7 million in the prior year period. Adjusted EBITDA for 2008 excludes \$14.9 million for charges comprised of \$1.4 million for the Green Spring boiler failure plus the fourth quarter charges noted above, while adjusted EBITDA for the prior year excludes \$6.8 million of acquisition costs, and adjusted EBITDA for both years excludes discontinued operations. The increase in adjusted EBITDA was mainly from higher demand and higher product pricing due primarily to higher oil prices, increased raw materials prices and higher contract pricing for CM&C. A reconciliation of adjusted EBITDA to EBITDA and EBITDA to net income is attached to this press release.

Monessen Sale and Bank Refinancing

The closing of the sale of the Monessen coke facility on October 1, 2008 resulted in the receipt of approximately \$100 million in net cash proceeds after taxes. Subsequent to the receipt of the proceeds, Koppers paid off its existing term loans and revolving credit facility which in total amounted to \$49.1 million at September 30, 2008. The remaining estimated net proceeds were added to the company's cash balance, which amounted to \$63.1 million at December 31, 2008.

On October 31, 2008, Koppers Inc. entered into a new credit agreement with a syndicate of banks led by Pittsburgh-based PNC and co-led by RBS Citizens Bank and Bank of America as joint book runners. The four-year agreement provides for a revolving credit facility of \$300 million at an initial interest rate of LIBOR plus 250 basis points. It will expire on October 31, 2012, and is subject to certain covenants, including maximum leverage, minimum fixed charges coverage and domestic interest coverage. There were no amounts drawn on the new credit facility as of December 31, 2008.

Commenting on the quarter, President and CEO Walter W. Turner said, "Like most manufacturing companies, we were negatively impacted in the fourth quarter by the volatility in our end markets. Our global aluminum, steel, rubber and plasticizer end markets have come under increasing distress in recent months, resulting in substantially lower volumes, margins and prices for some of our products; in particular, phthalic anhydride and carbon black feedstocks. Since we expect the current volatility to continue in 2009, we have taken steps to reduce our workforce and optimize our production facilities in response to the current environment. Specifically, we have reduced production at our carbon black facility in Australia by 70% in response

to lower demand and have reduced production at our tar distillation facilities in North America and Denmark in response to a reduction in tar availability from the steel companies coupled with cutbacks in aluminum production and demand. We believe these steps will assist us in optimizing profitability while conserving cash flow.

Mr. Turner concluded, "We are still feeling the effects of a volatile economic environment that, in addition to normal seasonal buying patterns, continues to evolve and impact our business. Therefore, we are not prepared to give specific guidance for 2009 at this time. We hope that we will be in a better position at the end of the first quarter to provide some clarity about what we anticipate for 2009. In the meantime, we will continue to focus on optimizing profits and prudently managing our cash flows."

Investor Conference Call and Web Simulcast

Koppers management will conduct a conference call this morning, February 17, 2009, beginning at 11:00 a.m. EST to discuss the company's performance. Interested parties may access the live audio broadcast by dialing (800) 762 8779 in the US/Canada or +1 (480) 248 5081 for International, Conference ID number 3964853. Investors are requested to access the call at least five minutes before the scheduled start time in order to complete a brief registration. An audio replay will be available approximately two hours after the call's completion at (800) 406 7325 or +1 (303) 590 3030, Conference ID number 3964853. The recording will be available for replay through March 3, 2009.

The live broadcast of Koppers conference call will be available online: http://phx.corporate-ir.net/phoenix.zhtml?p=irol-eventDetails&c=194019& eventID=2073650. (Due to the length of this URL, it may be necessary to copy and paste this hyperlink into your Internet browser's URL address field.)

If you are unable to participate during the live webcast, the call will be archived on www.koppers.com, www.streetevents.com and www.earnings.com shortly after the live call and continuing through March 3, 2009.

About Koppers

Koppers, with corporate headquarters and a research center in Pittsburgh, Pennsylvania, is a global integrated producer of carbon compounds and treated wood products. Including its joint ventures, Koppers operates facilities in the United States, United Kingdom, Denmark, Australia and China. The stock of Koppers Holdings Inc. is publicly traded on the New York Stock Exchange under the symbol "KOP." For more information, visit us on the Web: www.koppers.com. Questions concerning investor relations should be directed to Brian H. McCurrie at 412 227 2153 or Michael W. Snyder at 412 227 2131.

Safe Harbor Statement

This news release may contain forward-looking statements based on management's current expectations, estimates and projections. Such forward-looking statements speak only as of February 17, 2009, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after that date or to reflect the occurrence of unanticipated events. All statements that address expectations or projections about the future, including statements about the company's strategy for growth, product development, market position, expected expenditures and financial results are forward-looking statements. Some of the forward-looking statements may be identified by words like "expects," "anticipates," "plans," "intends," "projects," "indicates," and similar expressions. These statements are not guarantees of future performance and involve a number of risks, uncertainties and assumptions. Many factors, including those discussed more fully elsewhere in this release and in documents filed with the Securities and Exchange Commission by Koppers, particularly its latest annual report on Form 10-K and quarterly report on Form 10-Q, as well as others, could cause results to differ materially from those stated. These factors include, but are not limited to, changes in the laws, regulations, policies and economic conditions, including inflation, interest and foreign currency exchange rates, of countries in which the company does business; competitive pressures; the loss of one or more key customer or supplier relationships; customer insolvencies; successful integration of structural changes, including restructuring plans, acquisitions, divestitures and alliances; cost and availability of raw materials; and other economic, business, competitive, regulatory and/or operational factors affecting the business of Koppers generally.

Koppers believes that adjusted net income and adjusted EBITDA provide information useful to investors in understanding the underlying operational performance of the company, its business and performance trends and facilitates comparisons between periods and with other corporations in similar industries. The exclusion of certain items permits evaluation and a comparison of results for ongoing business operations, and it is on this basis that Koppers management internally assesses the company's performance.

Although Koppers believes that these non-GAAP financial measures enhance investors' understanding of its business and performance, these non-GAAP financial measures should not be considered an alternative to GAAP basis financial measures.
